

To help us keep you, our patients and our staff safe, we are encouraging **all visitors** to take a rapid lateral flow test at home before any planned visits.

If you, or anyone in your household, has any symptoms of COVID-19 including:

- a high temperature
- a new and continuous cough
- a loss/change to your sense of taste or smell

or if you receive a positive result on your rapid lateral flow test, **please do not visit our hospitals** and arrange to take a PCR test by calling 119.

Working together
to keep us all safe

Rapid lateral flow testing kits are available online at **GOV.UK** and **all local pharmacies**
